Cervello - Office renovations

Office Interiors

SKD Milton Building Addition

## TOTAL TURNKEY CONSTRUCTION SERVICES

- Construction services since 1993
- Founded on a solid background in key sub-trades
- General contracting or complete design/build projects

## YOUR RESOURCE FOR CONSTRUCTION EXCELLENCE

- Abtrex crews handle the major components of a job, often delegated to separate sub-trades.
- We operate our own up-to-date equipment including bulldozers, backhoes, excavators, trucks, zoom boom, forklifts, concrete saws, and concrete forms.
- Our flexibility saves you time and money.

## INSTALLATION OF EXTERIOR SHELL

The installation of the exterior shell of the building is accomplished rapidly due to our pre-engineered construction techniques.

## INTERIOR AND EXTERIOR FINISHING

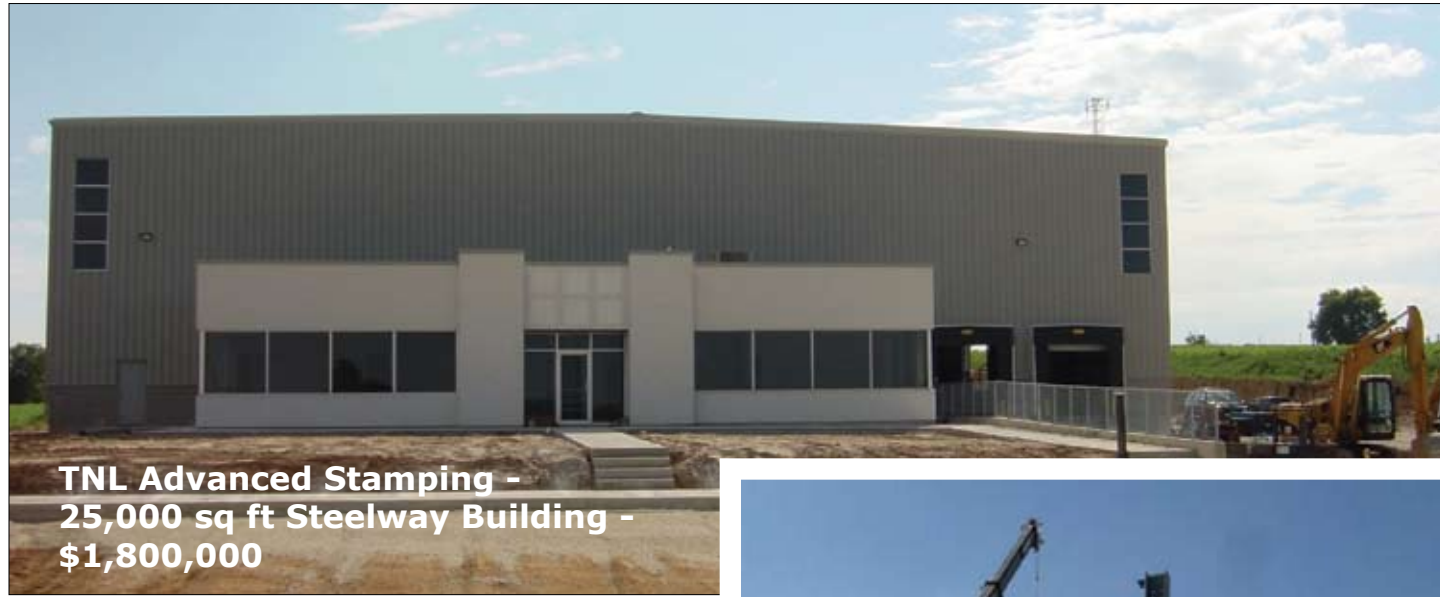

- Interior:**
- Wall finishes and flooring
  - Offices
  - Partitions

- Exterior:**
- Asphalt
  - Curbs
  - Sidewalk
  - Landscaping

Guru Sportswear Office Renovations - \$250,000

# DESIGN / BUILD

## DESIGN / BUILD AND CONSTRUCTION SERVICES

Abtrex excels at providing a complete turnkey design/build solution for our clients. Utilizing both pre-engineered and conventional construction techniques, we are able to address your needs by addressing a totally engineered facility. Even if your project has already been designed, you can take advantage of our General contracting Services to expedite the construction of your building.

# PRE-ENGINEERED / CONVENTIONAL BUILDINGS

SKD Brampton

Northern Prime Woods

## EXPERTS IN PRE-ENGINEERED STRUCTURES

- We are experts in pre-engineered structures
- Quick turn-around and economical construction
- We can integrate a combination of conventional and pre-engineered construction techniques
- Designs are not only functional, but attractive

## SPEED, STYLE, AND ECONOMY

Abtrex is a pre-engineered specialist, and offers the benefit of speed of construction, flexibility of style, and ultimately, economy. However, a pre-engineered building does not need to be a box. Advanced computer designing techniques have made pre-engineered building systems extremely flexible, incorporating many architectural features that are both aesthetically pleasing and functional. Pre-engineered buildings constructed by Abtrex are erected quickly and efficiently. This is due to the fact that the components are already being built even prior to the completion of the foundation. When the site is ready, all of the components to the building system arrive and can be rapidly assembled.

## *Contractors Inc.*

---

### **Company History**

Abtrex Contractors Inc. was incorporated in May 1993 as a subcontractor, and extended our experience into the general construction field in 1995. We have evolved into a single source firm providing turnkey solutions.

### **Principal Fields of Activity**

Abtrex Contractors Inc. specializes in design-build for conventional and pre-engineered buildings, and provides excavation, site services, and concrete formwork as part of the total scope of work.

### **Services Provided**

Design-build, general contracting, site development, and project management for the automotive/manufacturing industry.

### **Safety and Education**

Abtrex Contractors has maintained a zero injury frequency for many years and ensures that our employees are well trained in all levels of safety.

### **Representative List of Clients**

- SKD Company – Brampton / Milton divisions
- IKO Industries – Brampton
- Samco Machinery Limited – Scarborough
