

supplying JD Edwards
and IBM Power System/System i/
iSeries/AS/400.

near•sourcing

1. To utilize Mid-Range to manage IBM Power System/System i/iSeries/AS/400 and JD Edwards.
2. The decision to lower costs by eliminating the under utilization of employees, costly staff turnovers, employee education, and disruptions caused by holiday periods and sick leave.
3. Functions that can be performed more efficiently by Mid-Range, working on-site or off-site.
4. The recognition that Mid-Range, a proven local provider, can always outperform a distant offshore supplier.
